

Kittens On The Couch

OUR STORY

Kittens on the Couch is our short, sassy review show featuring our favorite products. And who are we? We're Natasha Blasick and Christina DeRosa. We're best friends and award winning actresses with over 150 Film and Television credits combined. Before this show we'd always call one another every day to share our preferred skin care routines, workouts, books, movies and foods. So, we created Kittens On The Couch to share our favorites with the world. Sharing is caring!

We look forward to introducing you to our 75K+ audience!
